Summary

Currently working as Sr UI/UX Designer with 13+ years of experience designing enterprise SaaS products, collaboration platforms, mobile applications, and scalable design systems.

Specialized in transforming complex workflows into intuitive user experiences through research, product strategy, interaction design, and system thinking. Extensive experience partnering with product managers, engineering teams, and business stakeholders to deliver user-centered solutions at scale.

Currently leading product design initiatives at MangoApps, focusing on enterprise collaboration, employee experience, AI-powered workflows, and design system evolution.

Actively exploring AI-assisted product development using Cursor, Figma Make, Google Stitch, Claude Design, and SwiftUI-based prototyping workflows.

Core Expertise/Skills

Product Design

- Product Strategy
- Enterprise UX
- SaaS Platforms
- Information Architecture

- UX Research
- User Flows
- Interaction Design

Design Systems

- Design Systems
- Component Libraries
- Design Tokens
- Accessibility
- Visual Consistency

Prototyping

- Rapid Prototyping
- High-Fidelity Design
- Interactive Prototypes
- Concept Validation
- Design-to-Code Workflows

AI-Assisted Design

- Cursor
- Claude Design
- Figma Make
- Google Stitch
- Vibe Coding
- AI-driven Prototyping

Technical

- Figma
- SwiftUI
- HTML/CSS

- GitHub
 - Design Documentation
-

Experience

MangoApps

Senior UI/UX Designer Jan 2022 – Present

Leading end-to-end product design initiatives for a modern enterprise intranet and employee experience platform serving distributed teams.

Key Contributions

- Led end-to-end product design for enterprise SaaS applications across web and mobile, taking features from discovery and research through wireframing, prototyping, visual design, developer handoff, and production.
- Designed and enhanced core collaboration modules including **Intranet, Chat, Newsfeed, LMS, Files, Forms, Trackers, Calendar, People Directory, Communities, and Knowledge Management.**
- Partnered closely with Product Managers, Engineering, QA, and stakeholders to translate complex business requirements into intuitive user experiences.
- Redesigned legacy workflows and information architecture, simplifying enterprise features and improving usability across the platform.
- Created low-fidelity wireframes, interactive prototypes, and high-fidelity UI designs using Figma while maintaining consistency with the product's design system.
- Defined and evolved reusable design components, patterns, and design standards to ensure consistency across multiple product modules.
- Worked daily with front-end and back-end engineering teams during implementation, reviewing builds, resolving UX issues, and ensuring design quality in production.
- Performed regular design reviews and usability audits to maintain a high-quality user experience across releases.

- Collaborated on AI-powered product initiatives, including AI-assisted content generation, analytics dashboards, and workflow automation experiences.
 - Designed enterprise dashboards, reporting interfaces, role-based analytics, and administrative experiences for different permission levels.
 - Improved complex data-heavy interfaces by simplifying navigation, hierarchy, and information presentation for enterprise users.
 - Managed multiple concurrent product initiatives while delivering designs within agile sprint cycles.
-

Tata Communications

User Experience Designer Dec 2020 – Jan 2022

Designed enterprise experiences for internal and customer-facing digital products.

Key Contributions

- Led UX design efforts from discovery through implementation.
 - Created workflows, UI specifications, and interaction models for complex business processes.
 - Collaborated with cross-functional teams to improve usability and adoption.
 - Established design standards and usability guidelines across initiatives.
-

MangoApps

Senior UI/UX Designer Sep 2015 – Dec 2020

Designed and evolved enterprise collaboration products across web and mobile platforms.

Key Contributions

- Delivered product features from concept to launch.
- Managed end-to-end UX design process.

- Created wireframes, prototypes, and high-fidelity interfaces.
 - Supported product branding and visual design consistency.
 - Worked closely with development teams to ensure accurate implementation.
-

Appnocrat Technology (Therapy Box)

UI/UX Designer Jan 2015 - Aug 2015

Designed accessibility-focused mobile experiences.

Key Contributions

- Designed applications for users with disabilities.
 - Created educational and gamified mobile experiences for children.
 - Worked on innovative keyboard and communication-assistance products.
 - Collaborated directly with engineering teams throughout implementation.
-

Probitry Venture

UI/UX Designer Sep 2012 – Dec 2014

Worked across mobile, web, branding, and client projects.

Key Contributions

- Sole designer responsible for strategy, UX, UI, and branding.
 - Designed websites and mobile applications for multiple industries.
 - Created wireframes, prototypes, visual designs, and marketing assets.
 - Improved product engagement through iterative design improvements.
-
